SUMMARY

Mid-Senior Engineer & First Class Computer Science Graduate with 3+ years shipping scalable FinTech solutions and maintaining 99.9% system uptime. Expert in architecting robust microservices, optimizing complex databases, and driving developer efficiency using PHP, Laravel, and TypeScript. Committed to delivering enterprise-grade software through rigorous testing, CI/CD, and cloud-native best practices. Adept at leveraging artificial intelligence to streamline workflows and seamlessly integrating AI capabilities into robust software architecture. Passionate about creating accessible educational content for the next generation of technologists, with over 443,000 readership views on technical publications.

TECHNICAL SKILLS

- Languages: PHP, JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3.
- Frameworks & Libraries: Laravel, Node.js, React.js, Vue.js, Express.js.
- Databases: MySQL (Relational), MongoDB (NoSQL).
- Tools & DevOps: Docker, Git/GitHub, CI/CD Pipelines, Mailgun.
- API Integrations: Stripe (Payments), Twilio (SMS/Voice), Firebase, RESTful APIs.
- Methodologies: Agile, Scrum, SDLC, TDD (Test Driven Development), OOP, MVC Architecture.

EXPERIENCE

freeCodeCamp | Technical Author | 2021 - Present

- Published 15+ technical articles with over 443,000 views, covering distributed systems, web frameworks, and software development.
- Authored content that has been widely translated into multiple languages to support global developer communities.

Stax Payments | Remote Mid-Senior Full-Stack Engineer (PHP) | June 2022 – October 2023

- Architected scalable backend microservices using PHP and Laravel, supporting high-volume transaction processing while ensuring 99.9% service uptime.
- Reduced developer onboarding time by ~40% by authoring comprehensive internal and public-facing API documentation, serving as the "single source of truth" for the engineering team.
- Optimized database performance by adapting complex data models, ensuring seamless integration of new features without downtime or data integrity loss during migration.
- Enhanced software quality assurance (QA) by enforcing rigorous unit testing and peer code review workflows, resulting in a significant reduction in critical bugs reaching production.
- Collaborated with UX/UI designers to translate wireframes into pixel-perfect, accessible interfaces, ensuring strict adherence to WCAG accessibility standards.
- *Environment:* PHP, Laravel, MySQL, REST APIs, Microservices.

AYU Digital Ltd. | Remote Software Engineer (Contract) | January 2022 – May 2022

- Engineered an omnichannel notification engine integrating Mailgun, Firebase, and Twilio, automating thousands of daily user communications (Email, SMS, Push).
- Secured user identity management by implementing robust authentication flows and mobile number verification using Twilio APIs, reducing fraudulent sign-ups.
- Accelerated administrative reporting by designing a custom data export algorithm that aggregated relational data into CSV/JSON formats 10x faster than the previous manual method.
- Developed a bulk data import system allowing administrators to parse and validate large CSV datasets, significantly reducing manual data entry overhead.
- Implemented secure payment gateways via Stripe, ensuring PCI-compliant transaction processing for the platform.
- *Environment:* PHP, Third-Party APIs (Stripe, Twilio), Firebase, JSON, CSV processing.

Humongous.io | Remote Software Engineer (Contract) | March 2021 – June 2021

- Reduced technical debt by refactoring legacy codebases and implementing TypeScript, enhancing type safety and maintainability across the full stack.
- Established automated testing protocols (Unit & Integration), catching regressions early in the lifecycle and ensuring a stable environment for launch.
- *Environment:* TypeScript, JavaScript, Unit Testing, CI/CD, Refactoring.

CitonHub | Remote Junior Backend Engineer (Contract) | November 2020 – January 2021

- Collaborated with senior architects to modernize core application logic using Laravel and Vue.js, ensuring continuity for legacy users during major platform updates.
- *Environment:* Laravel, Vue.js, PHP, Legacy Systems.

EDUCATION

BSc (Hons) Computer Science University of Wolverhampton - First Class

- Project and Professionalism: P81
- Introductory Programming And Problem Solving: P100
- Fundamentals of Computing: P100
- Object-Oriented Design and Programming: P100
- Robotic Engineering: P96
- Advanced Web Development: P94
- Numerical Methods and Concurrency: P94
- Complex Systems: P86

CERTIFICATIONS

JavaScript Algorithms and Data Structures, freeCodeCamp

Introduction to Python and Machine Learning - Data Science Nigeria

freeCodeCamp Top Open Source Contributor (2021–2024)

IBM Z and LinuxONE Community Contributor - 2025 (Level 1)

IBM Z Xplore All-Star

LEADERSHIP & VOLUNTEERING

Mentee, Educational Content & Advocacy | Mainframe Open Education (LFX Mentorship) Summer 2026

- Accepted into the highly selective, unpaid Summer 2026 mentorship program to develop technical content for mainframe beginners

Vice-President & Secretary | Mainframe Student Society University of Wolverhampton (MaSS UoW) 2025 – 2026

- Organized and facilitated weekly technical meet-ups and high-profile educational events, including the "Mainframe and Computer Science" event aimed at bridging the knowledge gap for CS students.
- Managed society operations, community outreach, and social media advocacy to grow student engagement with IBM Z technologies.

IBM Z Student Ambassador | IBM Z Student Ambassador Ambassador 2025 – 2026

- Reached the Highest Tier Achieved in the ambassador program by championing mainframe technologies across university channels and digital platforms.
- Featured in an exclusive interview on the IBM Z Student Ambassador program page to discuss personal experiences and technology advocacy.
- Recognized and featured by the Open Mainframe Project for promoting open-source enterprise computing and advocacy through technical writing.
- Authored a highly regarded technical deep-dive on Mainframe Workload Manager (WLM), which was officially featured by WAVEZ.
